PROJECTS

CookieWise AI (2026) (Group Project):

- **Tools:** JavaScript, Python, HTML, CSS, Browser Extension APIs, NLP Models
- An AI-powered browser extension that **detects cookie consent banners** and extracts privacy policy text in real time. Generates clear, plain-English summaries highlighting tracking, data sharing, and privacy risks before user consent. Provides concise alerts and detailed visual insights (e.g., data flow maps) to help users make informed, privacy-safe decisions.

MedPredict (2025) (Group Project):

- **Tools:** Python, HTML, CSS
- A natural language processing (NLP) project that takes patient's report and **predict the disease** while also giving description and recommended medicines. Bert base model is used.

Rentinel (2025) (Group Project):

- **Tools:** Spring Boot (Java), React.js, MySQL
- Developed an end-to-end system to **streamline rent tracking, tenant records, and lease management**. Automated reminders and payment logs reduced manual errors by ~50% and improved organization efficiency for both tenants and landlords.

Experience

MERN Stack internship (Code5 Technologies)

Lahore: Jun 2025 – Jul 2025

- Developed an admin dashboard and backend REST APIs using Node.js, Express, and MongoDB Atlas.
- Built a Resume Builder web application with AI integration (React, Node.js, MongoDB, Flask, Ollama AI).

Lab Demonstrator and Teaching assistant (FAST-NUCES)

Lahore: Aug 2025 – Present

- Assist students in understanding Database, Assembly Language and Digital Logic Design concepts.
- Design and grade assignments and quizzes.

Instructor (POLYMATH KIDS)

Lahore: Dec 2024 – Present

- Teach C++ and Web development course

SKILLS

- **Programming:** NLP, C, C++, Java, JavaScript, Node.js, Assembly Language, React, Postgresql, Mssql, Python(numpy+pnadas)
- **Tools:** MATLAB, Visual Studio, Visual Studio Code, Adobe Photoshop, Illustrator, JIRA, JUnit, Github, Ubuntu
- **Soft Skills:** Strong analytical thinking, problem-solving abilities, excellent interpersonal skills, and teamwork capabilities.

EDUCATION & QUALIFICATIONS

- **FAST- NUCES (Software Engineering Degree)** (Aug,2023-Present)
Currently in 6th semester with s GPA of 3.67/4
- **Keynesian institute of management and sciences (KIMS)** (2021-2023)
A levels done in Computer Science with 1012/1100 marks–92%

ACHIEVEMENTS

- **Department Topper:** Secured first position and received a gold medal and cash prize for achieving the highest GPA in the Software Engineering Department. (2025)
- **Dean's Honor List:** Recognized for academic excellence (Spring 2024, Fall 2025 and Spring 2025).
- **Competition:** Certification for participation in CodeBees competition (2025)
- **Language Proficiency:** O-Level Exam Certificate of French language.
- **High Achiever Awards:** Received five High Achiever Awards (2018, 2019, 2021, 2022, 2023) in 8 class, o and a levels.
- **UI/UX & Design:** Certified in Advanced Graphic Designing and UI/UX from NS Training (2024).

RELATED COURSES DONE

Natural Language Processing, Artificial Intelligence and Data Mining
